

Smoked Jalapeños

Posted by Larry Buras

19 fresh and firm jalapeños

Honey

Cheddar Cheese

Remove top with stem, de-seed, and place in the WTPT Jalapeño Roaster. Add 1/2 tsp honey in each pepper and stuff with cheddar cheese.

Place on barbecue rack or on shelf of smoker and cook until peppers are soft.

These are wonderful as to flavor and texture. I wish I could remember who I stole this recipe from so I could give them proper credit, but I don't.
